### **About Soapstone Networks**

Soapstone Networks is at the forefront of the movement to Carrier Ethernet by delivering resource control systems that realize NGN software-provisioned services in the new Carrier Ethernet transport network. Soapstone's common control framework decouples services from underlying network technologies. The Soapstone solution dynamically provisions precise, SLA-quality services, continuously optimizing utilization of network resources to bring orderly, predictable business-driven behavior to service provider networks. Accelerating Innovation - [www.soapstonenetworks.com](http://www.soapstonenetworks.com).

This release contains information about Soapstone's future expectations, plans, and prospects, including expectations for the growth opportunity that constitute forward-looking statements for purposes of the safe harbor provisions under the Private Securities Litigation Reform Act of 1995. Such forward-looking statements are subject to risks and uncertainties, which could cause actual results to differ materially from those anticipated. When used in this press release, the word "will", "expected" and other similar expressions are intended to identify such forward looking statements. Such risks and uncertainties include, but are not limited to market acceptance of our products, services and enhancements, dependence on our major customer, customer purchasing patterns and commitments, development of the market place, product development and enhancement, intensity of competition of other vendors, technological changes, reliance on technology and distribution partners, and other risks set forth in Soapstone's filings with the Securities and Exchange Commission. Soapstone does not undertake any duty to update forward-looking statements.
